

**BMB Requests Authors of Experimental Studies to Sign the Uniform Disclosure Form for Potential Conflicts of Interest**

**ICMJE - International Committee of Medical Journal Editor**

**ICMJE Uniform Disclosure Form for Potential Conflicts of Interest**

**Section 1. Identifying Information**

**First Name:**

**Surname:**

**Effective Date:**

**Are You Corresponding Author:**  **Yes**  **No**

**Manuscript Title:**

**Manuscript Identifying Number (if you know it):**

**Section 2. Information about the Support of the Work under Consideration for Publication**

Did you or your institution at any time receive payment or support in kind for any aspect of the submitted work (including but not limited to grants, data monitoring board, study design, manuscript preparation, statistical analysis, etc.)?

No

Yes, specify nature of compensation

**Section 3. Information about Relevant Financial Relationships outside the Submitted Work**

Place a check in the appropriate boxes in the table to indicate whether you have financial relationships (regardless of amount of compensation) with any entities that have an interest related to the submitted work. Use the comments column to indicate any additional information that you think a reader or editor would want to know about the compensation. Report relationships that were present during the 36 months prior to submission. In addition please disclose relationships that fall outside the 36-month window that readers may want to know about and could reasonably criticize you for not disclosing (for example, long-term financial relationships that are now ended).

Other (err on the side of full disclosure)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		

If you have more than one relationship, please enumerate them below this table.

## **Who Is an Author? Vancouver Group Positive Author**

**Authorship credit should be based only on substantial contributions to:**

- (1) Conception and design or analysis and interpretation of data**
- (2) Drafting the article or revising it critically for important intellectual content**
- (3) Final approval of the version to be published**

**Conditions 1, 2 and 3 must all be met. Participation solely in the acquisition of funding or the collection of data does not justify authorship. General supervision of the research group is not sufficient for authorship. Being the radiologist or pathologist who participated in diagnosing the case does not justify authorship, except if 1, 2, and 3 are met.**

**Authors should be prepared to explain to the chief editor the order in which authors are listed.**

**Original research studies are expected to have had approval of their study by the research and ethical committee or the Institutional Review Board (IRB) of the hospital concerned. Informed consent should be taken whenever it is necessary. Randomized controlled study should be registered whenever possible.**
